Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 60-74 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nelson, U.S. Patent No. 4,823,265, in view of "Foster Parents of Disabled Children may exclude Social Security Payments received through State" (Article), 92 STN 248-10, December 24, 1992, Court Opinions.

Nelson discloses third party accounts and customer account files.

Nelson does not disclose depositing funds in a third party account.

The Article discloses this difference.

To provide a means for caring for those who are not fully legally competent, it would have been obvious to deposit funds in a third party account, as taught by the Article, in the method of Nelson.

It is well known to provide goods and services to those who are not fully legally competent.

Response to Arguments

Applicant's arguments with respect to claims 60-74 have been considered

but are moot in view of the new ground(s) of rejection.
